CEO MESSAGE

> We are pleased to introduce CONMATEC INTERNATIONAL as an electromechanical contracting company serving construction projects through a broad range of MEP services.

Our team is focused on consistency, quality and reliability, with the objective of supporting project requirements and expectations through professional execution and responsive service.

We believe in providing practical technical support and dependable electromechanical services that contribute to safe, efficient and successful project delivery.

CONSISTENCY • QUALITY • RELIABILITY

CHAIRMAN MESSAGE

Quality, safety and disciplined execution remain at the center of every project.

CHAIRMAN MESSAGE

As an electromechanical contractor in the Kingdom of Saudi Arabia, CONMATEC INTERNATIONAL is committed to delivering high-quality work on time and within budget.

Safety, quality and the environment are among the most important concerns of our company, and our teams work to maintain strong performance across electromechanical and maintenance activities.

We continue to support our clients with the skills, resources and technical capability required to meet project challenges and expectations.

OUR COMMITMENT

High-quality work • On-time delivery • Safety • Reliability

VISION & MISSION

OUR VISION

To become a sustainably growing electromechanical service provider

through effective and efficient operations in KSA and to establish CONMATEC INTERNATIONAL as a recognized quality-centric brand across our fields of activity.

OUR MISSION

To provide skilled electromechanical services at high standards, using our

depth of expertise to deliver timely, quality-driven, efficient and value-added engineered solutions that meet project requirements and expectations.

OUR SERVICES

Our main activities encompass the complete supply, installation, operation, testing, balancing, commissioning and maintenance of electromechanical works.

Operations & Maintenance

INTEGRATED ELECTROMECHANICAL WORKS

Supply • Installation • Testing •
Commissioning • Operation • Maintenance

HVAC SYSTEMS

- All Types of Chilled Water System (Air Cooled Chillers & Water-Cooled Chillers).
- All types of Refrigerant System (VRV, DX Package, DX Split & Mini Split).
- Fire rated Air Ducting (Fire rated Galvanized Black Steel or Stainless Steel 304).
- Heat Exchangers.
- All types of Above & Under Ground Chilled Water Network.
- Air Handling Units and Fan Coil Units.
- Ducting Works - All types of Air Ducting & Cladding (Galvanized Black Steel, Pre insulated Duct).

FIRE FIGHTING & SAFETY

FIRE PROTECTION SYSTEMS

- Fire Suppression System (FM 200, Co2, Novec1230 & Foam system).
- All types of Firefighting Systems networks (Sprinkler systems).
- Fire alarm systems (Addressable and Conventional).
- All type of kitchen hood systems.
- Wet chemical kitchen hood systems.

FIRE FIGHTING • ALARM • SUPPRESSION

PLUMBING / PIPING SYSTEMS

- LPG system.
- Medical Gases.
- Drainage System.
- Water supply Network.
- Sanitary Fixture and Accessories.

PLUMBING • PIPING • UTILITIES

PUMPING STATIONS

- Fire Fighting Pumps.
- Water Supply Pumps.
- Chilled Water Pumps.
- Sewage and Drainage Pumps.
- Supply & Installation of various types of Pumps
(Axial, Screw & Centrifugal).

AXIAL • SCREW • CENTRIFUGAL

INFRASTRUCTURE SERVICES

- Lifting stations.
- Water Treatment plants.
- Water Sterilization Plants.
- Storm Drainage Networks.
- Potable and Fire Water Networks.
- Sewer & Drainage Networks.
- Irrigation System and Landscaping.
- Fuel System with Installation of fuel tanks (Above ground & Underground).
- Chilled Water System.
- Reverse Osmosis Plants.
- Sewage Treatment Plants.
- Fire Fighting and Gas Systems.

LOW & MEDIUM VOLTAGE NETWORKS AND SUBSTATIONS

01

Street and Landscape Lighting.

02

Switchgears and Transformers.

03

LV Cables, Duct Bank and Panel Boards.

04

Lightning Protection and Earthing Systems.

LOW CURRENT SYSTEMS

- CCTV System.
- Wireless Solution.
- Video Conference.
- Structured Cabling.
- Nurse Call Systems.
- IP Telephony Solution.
- Master Clock Systems.
- Master Antenna Television (MATV).
- Building Management system (BMS).
- Access Control System.
- Public Address Systems .
- Smart Building Systems.
- Intrusion Alarm Systems.
- Room Management System.
- Networking, IT and Cybersecurity.
- Hotel Room Management System.
- Audio Visual Systems and Solutions.
- Uninterruptible Power Supplies (UPS).
- Central Battery System (Emergency Lighting).

OPERATIONS & MAINTENANCE

A- Industrial Servicing

A-1 Maintenance And Reliability:

- ✓ Tank cleaning.
 - ✓ Site Repairs (RM).
 - ✓ Chemical Cleaning.
 - ✓ Filter Element Replacement.
 - ✓ Civil (foundations, paving sleepers).
 - ✓ Non-Metallic Repair for Pipeline.
 - ✓ Testing & commissioning assistance.
 - ✓ Shutdowns and Turnaround Support.
 - ✓ Steel structural & equipment erection.
 - ✓ Piping (spool fabrication and erection).
 - ✓ Process Equipment maintenance and Repair.
- ✓ Engineering & Technical Service Support.
 - ✓ Training of SAP Maintenance Modules and Inventory.
 - ✓ Operation, Maintenance and Reliability Consultancy.
 - ✓ Tools, Equipment, Infrastructure and logistics support.
 - ✓ Heat Exchanger Inspection and Bended Tube Inspection.
 - ✓ Existing Units, Equipment Rehabilitation & Refurbishment.
 - ✓ E&I (field instruments, panels, cables, trays, control valves).
 - ✓ Performing ISO & Auditing Formats for all maintenance activities.
 - ✓ Equipment, Units and Machinery Operation Performance Improvement.
 - ✓ Factory rotating and stationary equipment Overhauling, PM, PAM & Corrective Maintenance.

OPERATIONS & MAINTENANCE

A-2 Plant Turn Around

We Turnaround team works proactively with clients from planning to mobilization of facilities, equipment, tools and experienced supervision as per Shutdown/Turnaround requirement.

- Tumbler & Mixers.
- Boilers & Furnaces revamp.
- Columns, tray replacement.
- Piping & valve replacement.
- Heat Exchanger maintenance & re-tubing.
- Do 5Y analysis report and Incident reports.
- Extruders, Feeders, Loss-weight Feeders, Pelletizers, Augers, Discharge Bulk Stations, Cooling Belts, Bucket Elevators, Mills, Polymer Diverter and Screen

A-3 Manufacturing

We have capabilities include multi-disciplined experienced professionals together with fabrication facilities and lay down yard in Jubail. Our fabrication facilities are ASME DIV. VIII Certified.

- Skids prefabrication & maintenance.
- Exchanger fabrication & maintenance.
- Metallic (Ferrous & Non-Ferrous) Piping inter-connection and tie-ins.
- Compromise equipment & Units plot plan, plan piping and layout.

OPERATIONS & MAINTENANCE

01

B-Utilities Servicing:

The Utilities Division undertakes a wide range of maintenance for desalinated and treated water systems, sanitary and industrial wastewater system, sewage treatment plant, as well as electrical and mechanical system to provide such services required for industrial, commercial and residential facilities in Kingdom of Saudi Arabia.

02

B-1 Power Services Operations & Maintenance Services:

HVAC, AHUs and Chillers Systems.
Industrial & Petrochemical Plants.

03

B-2 Water Services Maintenance Services:

- Sewage Treatment Plant.
- Irrigation Water Network.
- Sea Water Cooling System.
- Industrial Wastewater Treatment plant.
- Sanitary & Industrial Wastewater Pumping Station.
- Potable Water Facilities (Production & Distribution).
- Plant Rehabilitation & Up-Gradation Services:
- Electrical & Mechanical Rehabilitation & Up-grade For Turbines/ Compressor / Boiler /

04

B-3 Technical Consultancy & Annual Maintenance Services

Sewage Treatment Plant.

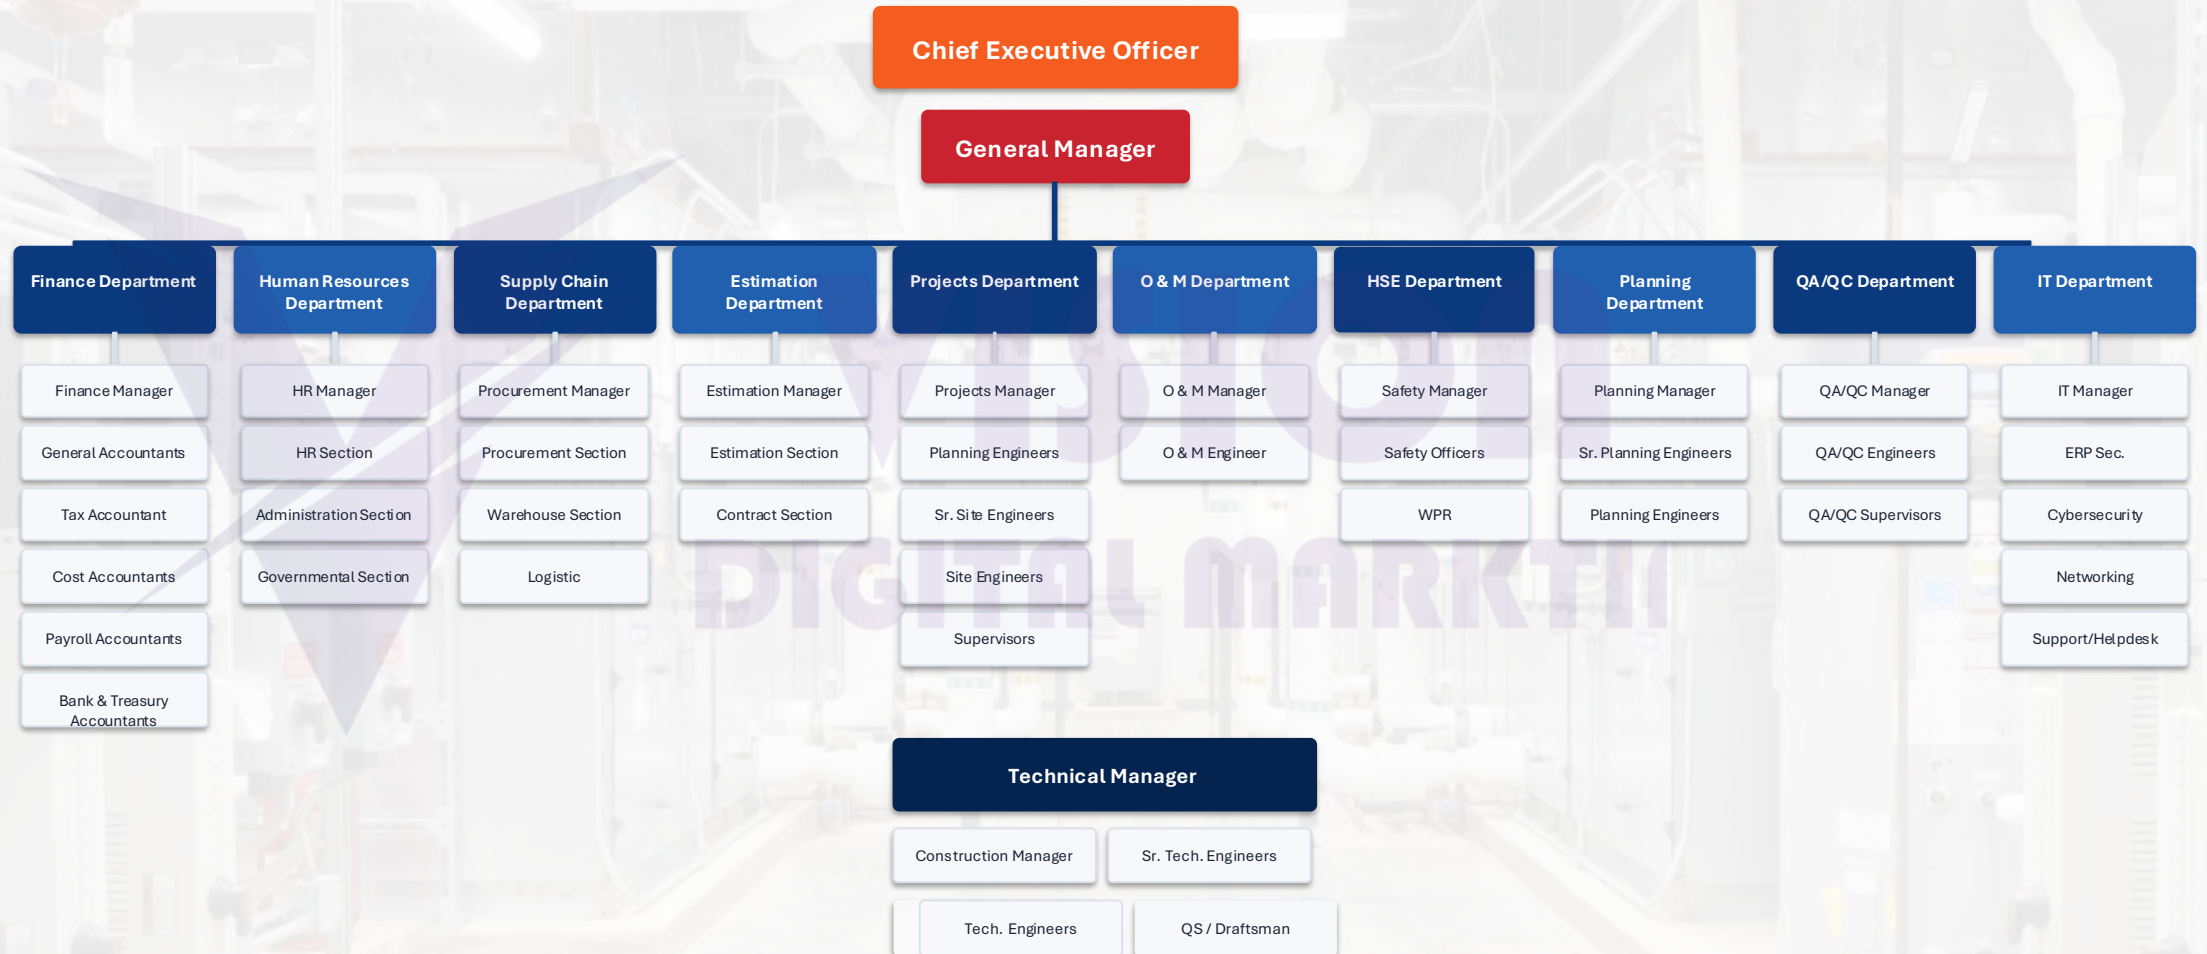

Industrial Wastewater Treatment plant.
Potable Water Facilities (Production & Distribution).

OUR PROJECTS

Diverse range of projects covers commercial centers, trade shows, educational institutions, dining establishments, high-rise buildings, hospitality venues, corporate headquarters, storage facilities, and manufacturing plants.

We are committed to offering customized solutions and services that are tailored to the specific requirements of each sector.
